

# Lunch with the Coder: Hierarchical Condition Category (HCC) and Risk Coding – Risk Scores Reset Every Year webinar

Patient risk scores reset and need to be coded every year. Demystify coding challenges and gain valuable insight into HCC by attending this educational event.

- What is HCC? What is risk coding?
- Which diagnosis codes should be added for risk coding?
- What should be documented in the medical record to support these diagnoses?
- How do HCC and risk coding affect specialists?

**Wednesday, June 16, 2021**  
**12–1 pm**

## TARGET AUDIENCE

Primary care and specialty physicians, coders, billers, practice directors and office managers

## PRESENTER

Mary Mallory, CEMC, ambulatory coding education specialist, The Physician Alliance
